A system of weights, and a correct system of measuring, are subjects claiming the attention of every individual engaged in commerce.

## FAIRBANKS'

STANDARD SCALES.  
ADAPTED TO EVERY BRANCH OF BUSINESS.  
Weights and scales of all kinds on hand.

These Scales are manufactured only by the original inventor, and are represented as Fairbanks' are more reliable than any other scales in the market.

They are extensively used in construction, are made of the best materials, by experienced and intelligent workmen, and under the strictest supervision of the inventor.

They have been in constant use in all branches of business for thirty years, in all parts of the world, and having been most thoroughly tried, are the acknowledged standard.

They have taken more first premiums than all other Scales, and what is more, have received the award of superior excellence by the vast numbers who have used them for many years.

They are perfectly warranted not only strong and accurate, but durable, and the manufacturers, who are permanently established and fully responsible, will always be prompt to make this warranty good.

They are owing to the large experience and superior facilities of the manufacturers, offered at lower prices than other Scales of equal size and capacity, and are adapted to all required uses, embracing more than a hundred different modifications.

They are cheap, convenient, strong, accurate, and durable, and their capacity to be repaired by the inventor, or by any competent person, is a great advantage, and is a feature of the great amount of property which, in the course of years, is weighed upon a single scale, and of the fact that, in any ordinary business, a good scale will last during the life of its owner. It is not only a great economy to have the probability of getting an inaccurate Scale, for the sake of a small saving, but it is a great loss.

Illustrated and descriptive Catalogues furnished upon application by mail or otherwise.

A CONSULTATION FOR THE AMERICAN INSTITUTE.

## THE HYDROPLUT.

Read the following letter from THOMAS MCGEEHAN, Esq., Secretary of the American Institute.

AMERICAN INSTITUTE, New York, Oct. 15, 1860.  
To the Honorable Hydropult Company.

In compliance with the request of one of the officers of the Institute, I have the pleasure to inform you that the Hydropult, which you have the honor to have exhibited at the Institute at Palace Gardens, in the city of New York, on the 10th inst., has been found to be a valuable and useful machine, and is well adapted to the purpose for which it was designed.

"ON THIS HEAD, MY LORD!"—We mean, of course, on our head, in case of KNOX's famous hair, and we have been a better and wiser man over since we have worn it. There is a clever resemblance between a nice looking hair and a wise head. It is recently realized, for the outside of the head is very typical of the inside. Call on CHAS. KNOX, No. 212 Broadway, and he will tell you all about it.

BRONCHITIS.—This acute form of CONSUMPTION can be locally relieved and permanently cured by the use of  
J. R. STAFFORD'S OLYVE TAIL  
AND  
IRON AND SULPHUR POWDERS.

The OLYVE TAIL is a pain and local anesthetic, and the IRON AND SULPHUR POWDERS convert the waste or waste particles of the blood into gases, which are ejected from the body by the pores, instead of being deposited as PHLEGM. The testimonials of REV. O. P. SPENCER, REV. DR. L. B. LORAN, D. L. MITCHELL, Esq., and many prominent and well-known persons are contained in a pamphlet, which will be sent, with any address, free by mail.

OLYVE TAIL, 6 cents per bottle; Powders, 1 per package. At No. 142 Broadway, N. Y., and all Druggists.

Carl Schurz speaks to the people of Williamsburgh this evening at the Odeon, in English, and subsequently in German, at Turner's Hall, in Mercer street. Of course, he will have a rousing reception.

From Mexico we learn that the Juarez Government has ordered the restoration of the conducta lately seized, and deprived Dogollido of his command, ordering him to be brought to Vera Cruz as a prisoner.

Impetuous circumstances having precluded the fulfillment by Senator Wilson of Mass. of the appointments in this State hitherto announced, his place will be taken by the Hon. FRED. P. SEANON of Kansas (whereof he was Secretary under Gov. Walker).

A Mass Meeting of the Republicans of Brooklyn will be held to-night at their headquarters, Wigwam, City Hall square. The Hon. JAMES H. HUNTER, STEPHEN M. GUNSWOLD, and STEWART I. WOODFORD, will speak. The Republicans of Kings County are thoroughly at work.

A most disgraceful assault was made upon a White Awake procession in Troy on Saturday night last, by the partisans of the Douglas Democracy. And it is in evidence, by the testimony of several persons, that the attack was a premeditated one, having been agreed upon for several days. It was one of the most murderous demonstrations ever witnessed in an inland town of this country.

The Hon. Jacob Collamer was yesterday recalled by the Legislature of Vermont to the U. S. Senate for a further term of six years from the 4th of March next. This is an event of which the whole country may be glad. Judge Collamer combines a ripe knowledge of public affairs, with ability, industry, and the most undoubted integrity. He is a genuine conservative—a conservative of Order with Liberty, Law with Right. Mr. Lincoln's Administration will have no purer and scarcely an abler supporter in the Senate.

The Republicans of Orange and Sullivan Counties held a rousing mass Convention at Middletown on Friday last, closing with a brilliant torchlight demonstration by 2,000 White-Awakes in the evening. A report of the doings of that day (delayed till now for want of room), which we publish elsewhere, will repay perusal. The Republicans of Orange and Sullivan are very "wide-awake," and will give a good account of themselves on the 6th of November next. If they do not succeed in returning to the House of Representatives their faithful, efficient and accomplished Representative, the Hon. CHARLES H. VAN WYCK, it will not be for the lack of zeal and untiring exertions to compass so desirable an object. The popularity of Mr. Van Wyck is evinced in the fact that he carried the District two years ago in the face of a Democratic majority (on Governor), making more than two thousand ahead of the Republican State ticket!

who in the fact that the Soudan Democracy dare not set up one of their own sort against him now, but have just united with the Believers to Mr. D. B. St. John, an old-time Anti-Slavery Whig.

We have some additional European news by the steamer Arabia. It is said that the Piedmontese are pursuing the Pontifical gendarmes close to the gates of Rome. This is doubtful, but the Secretary-General of Garibaldi, states that neither himself nor Garibaldi ever thought of enjoining the immediate occupation of Rome, at the risk of a conflict with France. The Sardinian Chambers had agreed to the annexation to Sardinia of those provinces of Central and Southern Italy which were in favor thereof. The Sardinian army was expected soon to enter Neapolitan territory. The Provinces of Umbria, Viterbo, and the Marches are lost to the Papal Government, and others are insecure. The only provinces left are Civita Vecchia, Frosinone, and Valerita. A better feeling existed between Garibaldi and Victor Emmanuel, the former having made some modifications in his Ministry to meet the views of the Neapolitans. Garibaldi, however, appears anxious to leave matters as they stand in the hands of Victor Emmanuel, and retire from the field. In the defeat of the Patriots at Capua, the English Hungarian brigades was badly cut up. In a manifesto Mazzini declares that no King of Italy should be proclaimed before the Kingdom of Italy is organized at Rome.

SOUTHERN TRADE—FIRE-EATING.  
The dry goods jobbing house of Lane, Boyce & Co., which recently suspended payment, have asked and obtained from their creditors an extension or postponement of their liabilities for terms of six, twelve, and eighteen months. Their balance-sheet, as submitted to their creditors, stood—

Assets—\$2,500,000. Liabilities—\$1,750,000.  
Apparent surplus—\$750,000.

Assuming these assets to be tolerably good, it seems clear that the house ought not to have failed at all, in times of general prosperity and monetary abundance like these. As their liabilities of course fall due from time to time, while their assets must consist mainly of retailers' notes not yet due, and which ought to be available at a moderate sacrifice, they ought not to have been obliged to ask forbearance at all. Supposing them to have \$2,000,000 in current mercantile paper, falling due from thirty days to six or eight months hence, that paper ought to be negotiable at an average of ten per cent off, so that they could pay every falling due note, leaving them \$500,000 in goods, slow notes, &c., as clear surplus. And, in a country where business is conducted soberly and rationally, such would be the result.

But Messrs. Lane, Boyce & Co. have been doing a heavy Southern trade, and that trade is usually conducted on principles which set prudence and even common sense at defiance. It is a common practice to sell heavy bills of goods to Southern houses of no known capital nominally on twelve months' time, but really on fourteen or fifteen months, as the goods are sold and delivered in February and the notes at twelve months dated the 1st of April ensuing. In other words, the cotton-planters have generally a year's credit with their merchants and factors for their food, clothing, implements, &c., &c., and sometimes for a part of their negroes also. Obviously, if insects, or frost, or drought, or floods, cut short the crop, the planter cannot pay; if the crop is superabundant, the price is apt to be low, and he is both slack and short; if his crop is ample and the price fair, he
